RIBA SOUTH CHAIRMAN'S AWARD 2001

SPENCE HOUSE, Beaulieu, Hampshire

Architect - John Pardey
Contractor - Lentune Building Services Ltd
Structural Engineer - Adams Kara Taylor
Mechanical and Electrical - Atelier Ten
Garden Design - Patrick McCann

Robert Franklin, the then Chairman said,

"A modest holiday retreat built for his own use by Sir Basil Spence in 1961, now listed grade II, whose present owner is a most appreciative and discerning admirer of Spence and who approached the necessary enlargement of the house with great care".

"In my view the architect has succeeded here to a high degree, leaving a highly satisfied client and a building that will last much longer than its original form and detailing would have allowed."

Robert Franklin
RIBA South Chairman 1999-2001
